The Cruel Knife!

It is absolutely useless to expect a surgical operation to cure cancer, or any other blood disease. The cruelty of such treatment is illustrated in the alarming number of deaths which result from it. The disease is in the blood, and hence can not be cut out. Nine times out of ten the surgeon's knife only hastens death.

Mr. S. S. Swift's specific, and with the advice of a friend, he has been taken to him. After twenty bottles had been taken, the Cancer disappeared and was cured. The cure was a permanent one, for he is now seventeen years old, and has never had a sign of the dreadful disease to return.
